

CONVENIENCE CARE CLINICS

Helping you and your doctor better manage your health

When you need treatment for common ailments and injuries, you have more choices. You have already come to trust the health care services offered through our broad provider networks. Now you can get high-quality, affordable services for a wide variety of routine medical conditions through Convenience Care Clinics located throughout the country.

Because we believe that your doctor has primary responsibility for your care and treatment, the results of your diagnosis and treatment are sent to your doctor with your permission. If you have a more severe condition, or require treatment in a different setting, the Convenience Care clinician will refer you to your doctor or an emergency room.

The Convenience Care Clinics available include:
